

Monitor ATM Atmos speaker

The Eltax Monitor Atmos speaker is a two-way, Dolby Atmos compatible model equipped with a 5" driver and a 1" soft dome tweeter. This speaker has been designed for placement on top of a floorstanding speaker, where it is directed toward the ceiling in order to reproduce the surround sound effects present in the Dolby Atmos soundtracks of new Blu-ray films. Combining simplicity with high performance, the Eltax Monitor Atmos speaker allows the viewer to become fully immersed in each scene and bring the authentic cinematic experience home for a great value.

- Stunning value for money
- Dolby Atmos compatible

Colours

Black
